All communncations and matter for publication must reach our office by Wednesday mornings.

All In Memoriams, Cards of Thanks etc. are charged for.

Address all correspondence to the Times-Virginian, Appomattox, Va.

EDITORIAL

Roosevelt's Courage-bf

Walter Lippman recently wrote in one of his articals, that courage was one of the finest and most habitual virtues of President Roosevelt. It is therefore the source of much of his political power. He has never lacked courage at critical moments since March 4, 1933. He may have made a few mistakes, but always he has been williing and ready to strike out anew, boldly and with enthusiasm, toward the serene seas of national security. He has defied powerful lobbies to prove himself the galent leader of the people, he has accumulated prestige and favor because above all else, he has never forgotten that the slogan of the 1932 campaign was "The Forgotten Man".

U D. C. Maker

The Times-Virginian takes note of continued efforts to secure funds to place an adequate and attractive marker by the site of Gen. Robert E. Lee's farewell address to the army of Northern Virginia near Appomattox. The local U. D. C. is taking the leadership in putting acros this effort We hope that the people will respond and that this worthy cause will shortly be realized. For the sake of the sacredness of the site and for the convenience to tourists who wish to see it, it should be done.

Solved In A Week

Another victory for the "G-Men". The latest kidnapping to flash across the pages ofthe nation has been solved and the larger part of the ransom paid as been found. It took just about one week for the G-Men to solve the crime and it is the latest plume in their bonnet.

Mr. and Mrs. W. S. Bryant, of Cullen Va. visited in the home of Mrs. Ola Patterson Sunday.

WHEN you are suffering, you want relief—not tomorrow—not next week—but right away. *DR. MILES ANTI-PAIN PILLS* relieve in just a few minutes—less than half the time required for many other pain-relieving medicines to act.

Next time you have a *Headache*, or *Neuralgia*, or *Muscular*, *Sciatic*, *Rheumatic*, or *Periodic Pains*, just take an Anti-Pain Pill. Learn for yourself how prompt and effective these little pain relievers are. You will never again want to use slower, less effective, less palatable medicines, after you have used Dr. Miles Anti-Pain Pills.

I am much pleased with your Anti-Pain Pills. They sure are wonderful for a headache and for functional pains. I have tried every kind of pills for headache, but none satisfied me as your Anti-Pain Pills have.
Ann Mikitko, St. Benedict, Pa.

DR. MILES' Anti-Pain Pills

Beckham

Those from Trinity who attended the quartelyCnference at Herman last Saturday were Messes W. A. Weakley and son Otto, Charlie and Thomas Martin,, A. F. Drinkard, H. R. an J. I. Moore

Misses Elizabeth and Gladys Coleman of Oakville were viisitors of Mr. and Mrs. M M Drinkard last week.

R. A and Mrs. W. A. Weakley and children spent Sunday week in Roanoke with his son Ott Weakley and family.

A. B. Chick was dinner guest on last Thursday of Mr. and Mrs M. M Drinkard. In the afternoon allthe above were guests af Mr and Mrs. A. F. Drinkard.

J. I. Moore had misfortune last Sat. eve to have one or more ribs broken by a milk cow who was waddling off the flier and butt him in the side The accident was very painful until the Dr. came and banaged his side.

About twenty of our Epworthers had a weiner social at Mrs. A. D. Rrinkards last Sat. night. They had planed to have the outing on the river near Stapleton but weather pevented.

The committee on childrens day at Trenity have set fourth Sunday morn at regular preaching hour to have the program.

Mrs. C. E. Carson, Mrs. Lyle Caldwell and two daughters were Friday guests of the formers sister, A. F. Drinkard.

Mr. R. A. Weakley on last Sat visited his daughter Mrs. G. C. Wilmer at Piney Ridge.

F. E. and Ed Andrews were dinner guests of Mr. and Mrs. J. T Moore on Sunday week Misses Edith and Helen Martin of Oakville accompanied them to their home in Roanoke for a week visit.

Old Timothy Stand Needs Fertilizing

Early Attention Is Necessary If Satisfactory Results Are Obtained.

Prepared by Ohio State University Agricultural Extension Service.—WNU Service.

It will pay to give the timothy sod some special attention this spring, in the opinion of agronomists at the Ohio State university, who are recommending a special top dressing with a nitrogenous fertilizer.

Because of the failure of many new seedings last year, it is expected that many meadows that ordinarily would be plowed this spring will be kept for another year.

The agronomists say that additional hay may be secured from these meadows, when they are largely or entirely timothy, by top dressing the field early with 150 to 200 pounds of sulfate of ammonia or nitrate of soda. If calcium cyanamid is used, the application should have been much earlier.

Ohio experiments indicate that, with normal rainfall in early spring, such an application will raise the yield of timothy 1,500 or 2,000 pounds an acre.

Nitrogenous fertilizers, however, should not be applied alone for more than one or two years for, say the agronomists, a stand of hay cannot be maintained unless phosphates and potash are also supplied. A 10-6-4 or similar analysis fertilizer is recommended if these top dressings are continued into the third year.

Nitrogenous top dressing may be expected to increase timothy seed yield one to two bushels an acre, should farmers with sufficient forage desire to produce seed.

Demand for timothy seed may be expected to continue to exceed the supply for at least another year, according to the university specialists. Timothy seed production in 1933 was only half normal; in 1934 it was one-seventh normal. Since many seedings failed last year, production in 1935 will probably be less than normal.

Skim milk and buttermilk are rich in protein and mineral matter and make good additions to farm grains to grow and fatten pigs.

* * *

Farm families are less likely to move from place to place in New York state, than rural people not on farms or people in cities, according to a recent study.

Curb Berry Bushes

Minnesota, seeking to control the white pine blister rust, has decided to restrict the planting of gooseberry and currant bushes. The organism of the rust attacks the white pines with serious effect, but only after being harbored on the gooseberry or currant plants. The berry bushes are vital to the life of the rust. Tests have indicated that the rust spores will carry as far as ten miles from a single bush and it is hoped to obviate further trouble.

Home-Grown Feeds Used for the Poultry Flock

A good rule to follow in making a mixture of home-grown feeds for poultry is to use 60 per cent corn or wheat or both. The remainder of the mixture recommended to make 100 per cent, is a combination of any two or more cereals, such as oats, buckwheat, barley, or more corn and wheat.

But do not use more than 40 per cent of barley, 30 per cent of heavy oats, or 25 per cent of buckwheat or rye in the mixture.

Potatoes can be used as a poultry feed. Four to five pounds of potatoes are equivalent to one pound of grain. They should be cooked when used. After cooking they should be mashed and mixed with enough of the laying mash to make a crumbly mixture. Use about two pounds of potatoes to one pound of mash. This can be fed as a moist mash in amounts which the hens will eat in from 15 to 20 minutes. One hundred hens will eat from six to eight pounds of potatoes a day in this way.

Pyrethrum Is Regarded as Reliable Insecticide

Wider use of pyrethrum and derris seems to be the answer to the grower's need for keeping his leafy vegetables free from residues of the more toxic insecticides, according to W. H. White, in charge of truck crop and garden insect investigations, United States Department of Agriculture.

Chemists and entomologists of the department have long sought substances that could be depended on to protect growing crops against destructive insect pests and still leave nothing harmful to human beings on the product to be marketed, he said.

Although this difficult problem is not yet completely solved, the scientists working on it have found that minute quantities of two plant products—derris and pyrethrum—kill many insects feeding on truck crops and are less likely than most inorganic insecticides now in common use to leave harmful residues.

How your MONEY WORKS FOR YOU IN A *Checking Account*

When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.

EXTRA DOLLAR VALUE

Look for the R&G Seal
...Then You Can Be Sure of Your Car

R&G is more than an advertising slogan to the buyer of a used car!

It's an honest guide to help you find a car that is—in first rate mechanical condition—that has been *actually* reconditioned through the 20 operations listed at the right—and one that represents true dollar for dollar value.

R&G cars may be bought from FORD DEALERS only—no used car can carry the R&G seal until it has been *thoroughly* reconditioned and passed inspection by expert mechanics—Then you are given a solid guarantee by your Ford dealer that you can depend on.

It isn't necessary to gamble and take costly chances. Take this safe, sure way to buy a used car. See the R&G used cars your Ford dealer is offering today. You are sure to find the make and model you want at the price you want to pay. Many late models of popular makes have been turned in for the new Ford V-8's—used cars that could seldom be found for sale a few years ago.

Prices are low. Easy terms may be arranged.

In addition to R&G cars, Ford dealers are offering a limited number of cars "as is." These are priced for quick sale and are real bargains.

ALL R&G USED CARS AND TRUCKS ARE PUT THROUGH THE FOLLOWING 20 RECONDITIONING OPERATIONS:

1. Clean and Wash Body-Chassis
2. Clean and Paint Motor
3. Recondition Motor where necessary
4. Reconditioning of Transmission where necessary
5. Recondition Rear Axle where necessary
6. Recondition Front Construction where necessary
7. Recondition Steering where necessary
8. Check All Wheels
9. Check All Brakes
10. Check Paint—repaint where necessary
11. Check Top carefully
